

SCHOOL PROGRAM LINKS TO CURRICULUM

Program	Prep	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7
Classification Top Secret: Classified				(ACSSU044) Living things can be grouped on the basis of observable features and can be distinguished from non-living things.				(ACSSU111) There are differences within and between groups of organisms; classification helps organise this diversity.
Adaptation and Animal Behaviour: How do I fit in?		(ACSSU017) Living things have a variety of external features.				(ACSSU043) Living things have structural features and adaptations that help them to survive in their environment.		
Human Impact: The Earth Under Threat	(ACSSU004) Daily and seasonal changes in our environment, including the weather, affect everyday life.	(ACSHE022) People use science in their daily lives, including when caring for their environment and living things.	(ACSHE035) People use science in their daily lives, including when caring for their environment and living things.	(ACSHE051) Science knowledge helps people to understand the effect of their actions.	(ACSHE062) Science knowledge helps people to understand the effect of their actions.		(ACSSU096) Sudden geological changes or extreme weather conditions can affect Earth's surface.	
Habitats: My Habitat My Home	(ACSSU002) Living things have basic needs, including food and water.	(ACSSU211) Living things live in different places where their needs are met.			(ACSSU073) Living things, including plants and animals, depend on each other and the environment to survive.		(ACSSU094) The growth and survival of living things are affected by the physical conditions of their environment.	
Water Cycle: Wondrous Water Cycle			(ACSSU032) Earth's resources, including water, are used in a variety of ways.					(ACSSU222) Water is an important resource that cycles through the environment.
Life Cycles: The Birth and Growth of Animals			(ACSSU030) Living things grow, change and have offspring similar to themselves.		(ACSSU072) Living things have life cycles. (ACSSU073) Living things, including plants and animals, depend on each other and the environment to survive.			
Indigenous Focus: The Aboriginal Way	Cross curriculum links	Cross curriculum links	Cross curriculum links	Cross curriculum links	Cross curriculum links	Cross curriculum links	Cross curriculum links	Cross curriculum links
Beach Walk: Hidden Treasure	(ACSSU002) Living things have basic needs, including food and water.	(ACSSU211) Living things live in different places where their needs are met.		(ACSSU044) Living things can be grouped on the basis of observable features and can be distinguished from non-living things.	(ACSSU073) Living things, including plants and animals, depend on each other and the environment to survive.		(ACSSU094) The growth and survival of living things are affected by the physical conditions of their environment.
