

Paper Puffer Fish

What you'll need

Brown paper bag
White and Yellow paint
Old fork
White paper

What to do

1. Use the fork with yellow paint and pivot the fork on the paper in a semi-circle
2. Repeat with white paint on the bottom half to create a circle
3. Paint a yellow triangle on each upper side of circle to create fins
4. Cut two small circles out of the white paper and glue for eyes. You can also use googly craft eyes.
5. Cut a mouth shape out of the white paper and glue onto middle of circle (body).
6. You can cut around the body to increase fine-motor skills and hang your puffer fish!

Have fun!! 😊
